DRV3 *Lite* Digital Leakage Receiver &
DSG1 *Lite* Digital Signal Generator

Description about the product:

- Cost-effective dual-band leakage meter and signal generator
- Advanced in-home shielding integrity testing (pressure test /system test)
- Frequency-agile in the mid-band (118 to 140 MHz) and LTE-band (600 to 860 MHz)
- Advanced in-home shielding integrity testing
- Audible squelch increases as you move closer to the leakage event
- Real-time RF level display of dual frequencies in split screen
- Bluetooth connectivity to third-party devices (cellular phone, tablets)

The **DRV3** ***Lite*** is a digital leakage receiver designed to operate in all-digital and hybrid cable networks. It operates as a portable find-and-fix meter for the installation or service technicians.

The **DSG1** ***Lite*** dual-band digital signal generator inserts either a low or a high-level signal at the drop cable in order to locate the smallest “hard-to-find” sources of leaks.
